All over the waterways of the island fish you can catch. First, you need to get a fishing rod! As you go through the task of restoring the third tablet for the lighthouse, you will save Cyril from the pain of hunger. In exchange for a tasty treat, he will give you a fishing rod. The next time you walk to the edge of the pond, you will see an action tip to throw your line: The game will automatically equip the fishing rod when you choose fishing activities. As soon as your line gets into the water, you will see how the shadows of the fish float. Sometimes you won't see a fish. When this happens, cancel your fishing action and change your line. Eventually the fish will nibble on your line. Just wait until you see ! flash over your head and then press the action button on the choice controller to roll in the fish. Larger fish take more mash buttons than small fish. You can also add bait to your line. Using bait will encourage fish to bite faster, and some fish require certain baits to be attached before they will bite your line. Sam sells regular baits of 10 G each. Other types of bait can be created using a windmill farm, with recipes unlocking how you complete Cyril's Country Life requests. You will select the bait from the bag right before you drop your line. If you want to use different baits, you have to completely come back from fishing (click cancel until you can move again) and then activate the fishing action again and choose another bait. The types of fish you catch will vary depending on the time of day and season you in. Gus Kuznets has two fishing rods upgrades available in his store: Master Fishing Rod: 10 coniferous woods, 10 Iron, 5 Orichalcum, and 10,000 G. Glorious Fishing Rod: 10 hardwoods, 3 Soul Gem, 5 Adamantite, and 50,000 G Master Rod will accidentally increase the number of fish you catch to two, not just one fish, while the glorious rod will upgrade that's up to three fish. The chance to catch more than one fish is not very common though, as most of the time I will only catch one fish. Fish can be shipped through your cargo box, sold by Sam, given as gifts, or even used as ingredients for cooking or windmill recipes. Bastian will buy fish from you at a higher price than Sam pays, but the chef doesn't buy all the fish available in the game. While you can fish in many places of water in the game, you won't find fish unless you throw your line while standing on the southern beach of Lighthouse Island. For ocean

fishing you first have to repair the pier using 30 Material Stone, 5 Iron, 2 Mithril, and 5000 G. Then you can throw your line while standing at the end of the dock. The pier south of the lighthouse also needs repair before you Catch fish in this salt water region, which costs 30 hardwoods, 10 coniferous wood, 5 donkey furs, and 5000 G. Fish List There's a total of 34 species of fish. Fish. The game encyclopedia will show you a summary of each one after you've caught it, including its preferred season and time of day. If you play a special edition of The Light of Hope, the encyclopedia will also list the largest size and smallest size of each type of fish that you have discovered. Below the information below is what I caught in the game. Some fish may appear in other areas than what I have confirmed. In: Information is needed, Harvest Moon: Light of Hope, Fishing Share This page is missing key information. Help Harvest The Moon by adding information. Remove the InfoNeeded tag when it's completed. Fishing is a skill in harvesting the moon Light of Hope and over all there are 34 fish to catch. To fish, you obviously need a fishing rod. You get it after the renovation of Cyril's house. The next day there will be a bed where Cyril lies on the ground near your house, he was robbed and he is starving. He'll ask you to give him something to eat. And to repay you for the service, he will give you Fishing Rod. When you have got a fishing rod you can start fishing in ponds (ponds, rivers or ocean). Fishing requires patience. Wait until your bait sinks and then press the action button until you have reached the left side of the action bar. If you do nothing, the fish will go away and you have to start over. You can catch different fish depending on the season, place and time. Fishing Births There are some places and fish that require rods for fishing. After you get the fishing rod from Cyril, Gus will be able to update it to her enough materials and payment. The upgraded rod won't allow you to catch everything you can't with the main you got from Cyril, but it will allow you to accidentally catch a few fish. This makes it invaluable to win the top ranks of the monthly fishing competition. The Master Rod update also requires fishing on the beach and Beacon Outlook. Named Effect Materials Price Master Fishing Rod Chance to Catch Two Fish Softwood x10, Iron x10, Orichalcum x5 10,000 G Glorious Fishing Rod Chance to catch three hardwood fish x10, Soul Gem x3, Adamantite x5 50,000 G Fishing Bait You can catch most fish without using bait, but there are some fish out there that have more specific tastes. The bait will make fishing easier and will cause the fish to bite faster, which is good as it saves you a lot of time. Regular bait is the first kind of bait you get on hand, and can be bought at Sam's store in the second tab. It sells it pretty cheaply, so it's definitely worth your time to buy. There are also some specialty baits that can only be made in a windmill, and that require a recipe to unlock. You can purchase recipes for additional lures by following Cyril's requests. Bait Recipes Unlock Materials Regular Bait Cyril 1st Request Cormeal x4 Good Bait Cyril 3rd Request Cormeal x4, Mosquitofish x2 / Crucian Crap x2 / White crucian Crap x1 / Barbatus x1 Excellent bait Cyril 5th Request Cormeal x4, Goby x1 / Black bass x2 / Rainbow Trout x2 Delicious Fish Feed Cyril 7th Request Feed Corn x4, Asparagus x3, Gobi x1 / Black Bass x2 / Rainbow Trout x2 Fertilizer Fish Feed Cyril 8th Request Corn Meat Feed x4, Tomato x3, Mosquito Fish x2 Tropical Fish Feed Cyril 9th Request Sunset Cormeal x5, Watermelon x2, Piranha x3 Ragnarok Fish Feed Cyril 10th Request Yellow Corn Chalk x5, Phalanx x2, Electric Eel x1 Fish This is a list of all the fish you can catch in the game including their favorite bait, time and place. Taking any kind of bait with you is highly recommended because the fish will bite faster, allowing you to catch more fish over time and thus earn more points. You won't be able to purchase the bait on the day of the contest, as Sam's store will be closed, so either stock up the day before or make some at the windmill if you unlocked it. To start the fishing competition, go to the town square and talk to Sam between 10am and 3:59 p.m. If you win a fishing contest in a certain class, the next class will unlock. The prizes you can earn for each class and the points required to win are detailed below. As mentioned earlier, fishing without bait is possible (see fishing bait for more information). By selecting the bait, click the action button to confirm and throw your line. Now you have to see the fish - a form of shade lurking in the water; If not, you will need to coil and throw again (don't worry, it shouldn't use the chosen bait). Wait until one of the fish bite on the line and then press the action button repeatedly to drain the endurance of the fish from the bar. When the fish is out of endurance, you should automatically reel it up and catch it.
